22mm Pushbutton DIN Mounting Fixture

DIN rail Stand for 22mm LED indicators and toggle switches
PMH-DIN

SAFE · PRODUCTIVE · RELIABLE

Data Sheet

Features

- Plastic stand
- 22mm hole to accommodate LEDs and Toggle switches
- Open design to allow access to terminals

Applications

- Emergency Lighting test circuits
- LED indicators
- Toggle switches
- Push buttons

Description

The Mercs PMH-DIN allow you to mount 22mm LEDs and Toggle switches on to a standard 35mm DIN rail. This allows safe easy access through an escutcheon similar to circuit breakers and other modular DIN rail equipment items. The open design allows for easy access to electrical terminals when required. For use with MerCs 22mm Control & Signalling Units

Technical Data

Material	Insulated material
Colour	White
Diameter	22 mm
Drilling diameter	22.3 mm
	Fixing to DIN rail with clips
Overall height	57.5 mm
Mounting location	In Enclosure or electrical cabinet Mounting
	Supported on 35 mm symmetrical rail or surface mount
Product weight	0.04 kg
